

Numbers

Daughter

[Verse 1]

Take the worst situations

Make a worse situation

Follow me home, pretend you

Found somebody to mend you[Chorus]

I feel numb

I feel numb in this kingdom

I feel numb

I feel numb in this kingdom[Verse 2]

Can you clean lace faces?

Black out nights and tight spaces?

We'll feel distant embraces

Scratching hands 'round my waist, yeah

I wish my mouth would still taste you[Chorus x2][Bridge x4]

You better, you better, you better

You better make me

Me better, me better

You better make me better[Outro]

I feel numb, make me better

I feel numb in this kingdom

I feel numb, make me better

I feel numb in this kingdom
