Where The Beauty Ends

Deadstar Assembly

You've waited here just to be thrown away
And your a paracite,
Feeding off the last one standing
And now your fallin'
Fallin' to the ground with clenched fistsYour so afraid that you can't be a part of it
You try so hard to resist the desperate
And now your crawling, you've started to fade
And now your fallin' fallin' awayYou'll be faced down when it's over
(consumed by the trends)
You are the trend untill it's over
(this is where the beauty ends)
You'll be faced down when it's over
(consumed by the trends)
You are the trend untill it's over
(this is where the beauty...) EndsYour here right now waiting to be blown away
And your pissed because life's pissing you away
Your so afraid cause ya can't be a part of it
You try so hard to resist the desperate
And your fallin' fallin' to the ground
And your fallin' fallin' Face down
It's all you've ever had
It's all you've ever hadYou never took the time to be real
You never gave yourself a chance to last
Now where are all your friends?
This is where the beauty.....EndsYou'll be faced down when it's over
(consumed by the trends)
You are the trend untill it's over
(this is where the beauty ends)
You'll be faced down when it's over
(consumed by the trends)
You are the trend untill it's over
(this is where the beauty ends)You are the trend
Where are your friends
You are the trend untill it's over
(this is where the beauty....)
You are the trend untill it's over
