

# Been There Done That

Jeff & Sheri Easter

Been there, done that

You know it wasn't long ago man I thought I was strong  
Living my life out on my own until my strength was gone  
Free as a feather in a foolish wind I'd go anywhere it blew  
But the storms of life left me with nothing to hold on to

I've been there, I've done that  
And I ain't ever going back  
I've walked through Salavtion's door  
And there's nothing worth returning for  
I'll never live that life again no I'm never going back  
No way I've Been there I've Done that

This world can take a trusting heart and crush it 'till it breaks  
But I've found the shelter of the Father's arm to save  
But you could offer me this whole wide world and beg me please to stay  
But I'll just smile and wave good-bye and then you'll hear me say

I've been there, I've done that  
And I ain't ever going back  
I've walked through Salavtion's door  
And there's nothing worth returning for  
I'll never live that life again no I'm never going back  
No way I've Been there I've Done that

Been there, done that  
And I ain't ever going back  
I've walked through Salavtion's door  
And there's nothing worth returning for  
I'll never live that life again no I'm never going back  
No way I've Been there I've Done that

No way been there done that
