Pictures

Sia

You have her pictures
You have her pictures
You have her pictures
Everywhere
You're covered in stitches
You're covered in stitches
You think I can't see them
But I know they're there
Take her down from the wall
I just sell firewall
You can't keep a frozen
Doorman at your court
You can try to move on
Tripped by stitches come undone
You lost your big heart
You lost your big heart
You lost your big heart
Beating bare
She gave you a new start
She gave you a new start
But you knew you'd lost her
To despair
Take her down from the wall
I just sell firewall
You can't keep a frozen
Doorman at your court
You can try to move on
Tripped by stitches come undone
You skin burns and prickles
You skin burns and prickles
You skin burns and prickles
When she's near
You try to play it cool
You try to play it cool
You try to play it cool
But you're filled with fear
Take her down from the wall
I just sell firewall
You can't keep a frozen

Doorman at your court
You can try to move on
Tripped by stitches come undone
Take her down from the wall
Let her go make her yours
You can't keep a frozen
Doorman at your court
You can try to move on
Tripped by stitches come undone
You can try to move on
Tripped by stitches come undone
You can try to move on
Tripped by stitches come undone
You can try to move on
Or maybe she is the one
