

Intruder (Skeemask Remix)

Moderat

When I lay at night
They come passing by
One after the other
On the left side of my heart When I lay at night
They come take my hand
They don't make a sound
When they lie with me [Pitched Down]
They speak words of mercy
They speak words of hope
They speak words of mercy
They speak words of hope (ohhh ohhh ohhhhh) When I sleep at night
They're passing by
One after the other
On the left of my heart When I sleep at night
At night
At night
At night When I sleep at night
When I sleep at night
