Silent World

araabMUZIK

If I could put you on top of a cake
I would ice you
And keep you wrapped up in a box
To be near you
If I could, I wouldIf I could touch you
Again with my fingers so gently
If I could feel you
Breathing in time next to meBut the silence surrounds me
Flashing memories of you
Riding with the moon that night
I never had the chance to say goodbye
GoodbyeLost forever, lost to another world
Gone forever but remembered in our thoughts
You areIf I could open the heavens above
I'd be with you
If I could hold you again in my arms
I would tell you that I love you
