

Nothing Like Your Love (Acoustic Version)

Hillsong UNITED

Love unchanging
God Your mercy never fades and I'm surrounded
By Your compassion and Your grace Your love brighter than the sun
More beautiful than words could ever say
This endless light shining over all
It leads me to Your glory everlasting In Your kindness
For the broken and the lost
You gave Your only son to bear my shame upon the cross Your love brighter than the sun
More beautiful than words could ever say
This endless light shining over all
It leads me to Your glory everlasting
