

Heaven Sent (Killed)

The New Amsterdams

Taste the forbidden from the tree
All the questions begging me
I'm plagued with curiosity
These are all worth answering It takes talent to have an original sin
Is it a tragedy if you are just a fool All this is heaven sent
Give me a chance to repent
Forgive me this decadence
Give me a chance to repent Walk in the garden next to me
But there are all these walls around it
How could you take this place from me
I left all my lessons in it Baby needs a new paradise
The sweetest of the songs that she's singing All this is heaven sent
Give me a chance to repent
Forgive me this decadence
Give me a chance to repent
