

# Tomorrow

Mavis Staples

I've got something  
that I really wanna say  
Sometimes things  
just won't go your way  
But don't you worry  
when the sky turns gray  
Tomorrow is another day  
Life is bound  
to have ups and downs  
For every smile  
there will be a frown  
But you'll get through it  
come what may  
Tomorrow is another day  
Everyone has problems  
You need a little help  
You don't have to go through it  
All by yourself  
If you're feeling alone  
Pick up the phone  
When push comes to shove  
Talk to someone you love  
Happiness is the key to success  
Too much stress  
is going to leave you depressed  
Don't forget to make  
Some time for play  
Tomorrow is another day  
Just remember to love somebody  
Laugh with somebody  
Give to somebody  
Live for somebody  
Love somebody  
Laugh with somebody  
Live for somebody  
Give to somebody  
If at first you don't succeed  
You probably made some mistakes  
Life gives you lemons

go and make a lemon cake  
Don't you worry  
Everything's gonna be ok  
Tomorrow is another day.  
Gotta work for what you want  
Nothing comes automatic  
You'll get out what you put in  
No such thing as magic  
In the end it's all worth it  
Practice makes perfect  
Put love in what you do  
Good things will come to you  
I've got something  
That I really want to say  
Sometimes things  
Just won't go your way  
Don't you worry  
When the sky turns gray  
Tomorrow is another day  
Life is bound  
To have ups and downs  
For every smile  
There will be a frown  
But you'll get through it  
Come what may  
Tomorrow is another day  
I said tomorrow  
Tomorrow  
Tomorrow  
Tomorrow  
I said tomorrow  
Tomorrow  
Tomorrow is another day
