

# Young Pretenders Army

## The (International) Noise Conspiracy

Play with me just like a lost kitten in a tree  
Set it off and alternative that's never of it's knees  
Come along, join in on the fun yeah[Incomprehensible] it's just like commodity  
[Incomprehensible] are sold so cheap  
Cut it up and watch me go to sleep Yeah come on come on come on yeah  
We're the young pretenders army  
Wow said you weren't free yeah Dead set on target just pay the fee  
Consume lifestyles just to be set free  
And now what does this all mean to me? Play with me just like a lost kitten in a tree  
Set it off and alternative that's never of it's knees  
Come along, join in on the fun Damn come on, come on, come on yeah  
We're the young pretenders army  
Wow said you weren't free yeah Right about now, just a little more time  
We're the young pretenders army  
Right about now, just a little more time  
We're the young pretenders army I've got just a little piece of my mind  
Said, said what are you  
I've got just a little piece of my mind  
Said, said what are you We pretend that everything is gonna be alright  
We pretend the revolution is in sight  
We pretend rebellion's close at hand We pretend, we pretend, we pretend yeah We pretend, we pretend yeah  
We pretend, we pretend yeah  
We pretend, we pretend yeah
