

Like Nobody's Around

Big Time Rush

Want you to cry
'Cause you're laughing so hard tonight
Playing air guitar alright
We're being who we are even if they hate that Want you to shout
At the top of your lungs about
All our favorite songs so loud
We'll be singing along even if they hate that Turn up the radio
So what if we lose control
Get a little bit rock and roll, oh whoa oh So throw your hands in the air
Come on and make this count
It's only you and me, never mind this crowd
Do the way you do it
Do it like nobody's around, whoa
So put your hands in the air
Come on and waste no time
It doesn't really matter if it's wrong or right
Do the way you do it
Do it like nobody's around
We can do it like nobody's around Don't hesitate, be as dumb as you like, you may
Miss the time of our lives so stay
Your dancing under the lights, even if they hate that Turn up the radio
So what if we lose control
Get a little bit rock and roll, oh oh oh So throw your hands in the air
Come on and make this count
It's only you and me, never mind this crowd
Do the way you do it
Do it like nobody's around, whoa
So put your hands in the air
Come on and waste no time
It doesn't really matter if it's wrong or right
Do the way you do it
Do it like nobody's around
We can do it like nobody's around Someday when you're alone and feeling whatever
You gotta remember the times
When we were dancing alone and holding fake microphones
I hope those memories can make you feel alright Turn up the radio
So what if we lose control
Get a little bit rock and roll, oh oh oh So throw your hands in the air
Come on and make this count

It's only you and me, never mind this crowd
Do the way you do it
Do it like nobody's around, whoa
So put your hands in the air
Come on and waste no time
It doesn't really matter if it's wrong or right
Do the way you do it
Do it like nobody's around
We can do it like nobody's around Whoa oh oh oh, we can do it like nobody's around
Whoa oh oh oh, we can do it like nobody's around
Yeah yeah yeah, whoa oh oh oh
Yeah yeah yeah, we can do it like nobody's around
Whoa oh oh oh, we can do it like nobody's around
