

# A Wonderful Life

## Brian Fallon

Most of this life's been a drag of a high  
And lows like a blow in a paid thrown title fight  
Most of my sins were born in a kiss on a night like this  
Calling all lonely hearts

Don't you want a life like we saw on the picture show?  
So come on, give me something, come on, keep me up all night  
You say, my baby, all this time in between drives me crazy  
I want a life on fire, going mad with desire  
I don't wanna survive, I want a wonderful life

My love seems like it goes from a dream  
To a crash and a roll, just shaking up everyone  
Maybe there's more than the treasures we secure  
That become heavy chains, to sink us in tidal waves

And all I could do is take you from the circus show  
So come on give me something, come on keep me up all night

You say, my baby, all this time in between drives me crazy  
I want a life on fire, going mad with desire  
I don't wanna survive, I want a wonderful life

And all my nights they always end the same (with the blacktop, blacktop)  
Coming from behind  
It's just the age-old game from the living dead buzzing in my head  
They keep me up all night

You say, my baby, all this time in between drives me crazy  
I want a life on fire, going mad with desire  
I don't wanna survive, I want a wonderful life

(All my sins were born in a kiss on a night like this calling all lonely hearts)  
I want a wonderful life
