Keep the Change

Hank Williams, Jr.

I'll keep my freedom
I'll keep my guns
Try to keep my money
And my religion too
Try to keep on workin
Try to keep on smilin
I will keep my Christian name
And y'all can keep the change
I'll keep my Hero's
Pictures on the wall
I'll keep my family safe
You bluff and I'll call
I'm gonna keep my big V8
Keep my friends the same
Keep the government outta my business
And yall can keep the change
This country's sure as hell been goin down the drain
We know what we need
We know who to blame
United Socialist States of America how do ya like that name
I'll keep the USA and yall keep the change
So Fox n Friends wanna put me down
Ask for my opinion then twist it all around
Supposed to be talkin about my fathers new CD
Well two can play that gotcha game just wait and see
Don't tread on me
This country's sure as hell been goin down the drain
We know what we need we know who to blame
United Socialist States of America dont ya just love that name
I'll keep the USA and yall keep the change
I'll keep the USA and yall keep the change
