

# The Guardians of Mankind

## Gamma Ray

For no one to see for no one to hear  
They fight for our souls without any fear  
When injustice done they open their gates  
To maintain balance between good and bad And the winds of freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hate The guardians of Mankind  
Are losin' their faith  
'Cause malice and falseness  
Spread over the human race  
The guardians of mankind  
Won't shelter our souls  
The rulers of darkness  
Will soon gain control Don't try to deceive them don't try to play false  
'Cause losing their favour will be the end of shelter And as the winds of freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hate The guardians of Mankind And as the winds of  
freedom blow they vanish into haze  
The mighty shadow turns away and wisdom conquers hate The guardians of Mankind  
Are losin' their faith  
'Cause malice and falseness  
Spread over the human race  
If guardians of mankind  
Won't shelter our souls  
The rulers of darkness  
Will soon gain control
