

# The Fight (Albatross Version)

## The Classic Crime

Would you go to war for me, baby  
Would you cry for the weak  
And die for the peace of men  
Oh how can we know  
You and I both know  
So let's make this boatload of excuses burn and sing One day it all comes down to this  
You can sink or swim  
You can handle this  
One day it all comes down  
One day we all go down I'll take my heart back  
And set the people free  
I'll leave the dead to die  
And take what's coming with me Step back for all the world to see  
Your life means all the world to me  
I'll take your pain and suffering  
I'm such a sucker sometimes  
Sometimes we don't know  
So plug up those bullet holes  
Oh you feel so close, don't let go until I say One day we'll drink to this and say  
Remember when we died  
We went out in flames I'll take my heart back  
And set the people free  
And take what's coming with me Step back for all the world to see  
Your life means all the world to me  
I'll take your pain and suffering  
I'm such a sucker sometimes  
Sometimes we don't know  
So plug up those bullet holes  
Oh you feel so close, don't let go until I say One day we'll drink to this and say  
Remember when we died  
We went out in flames I'll take my heart back  
And set the people free  
There will be blood in the streets
