

# Beneath with Me (feat. Skylar Grey)

## Kaskade

[Verse 1]

Can't escape

All the fire burning bright

Water still is rising

Throughout the long nights[Chorus]

Come take my hand

And focus on the light down at the end

Say words to comfort me

We still have time for hope, that's all we need

Beneath with me

Beneath with me

Beneath with me

[Verse 2]

Morning grace

Enemies have come together

Miles have gone silent

In the arms of strangers[Chorus]

Come take my hand

And focus on the light down at the end

Say words to comfort me

We still have time for hope

That's all we need

Beneath with me

Beneath with me

Beneath with me
