Here Comes Forever

R5

I'm like that boom box outside of your window
I'm that Delorean blowing past 88
And where we're going girl,
Won't be needing roads cause,
Oo oo oo oo
This ain't no 50 first dates.
I'm talking bout starting out as friends
I'm talking bout real and not pretend
I'm talking bout roles of a life time
You and I can even right the end
Yeaaaaah
Here comes that movie scene
The one you think is so cliche

That moment when we kissed
By the lake pouring rain
I ain't no superman
But I can change your world
Oooooo
Here comes forever girl
Oooooo
Here comes forever
Oooooo
Here comes forever girl
This ain't no remake of a Romeo story
Ain't no werewolf trying to steal you away
I'll be your a-list, be the man on the moon cause
Me and you outta space
