

Jack the Lad

Pet Shop Boys

Lawrence in the desert
How was he to know
Under so much pressure
From the men back home? Play with fire, you must be mad
Are you only Jack the Lad?
Play with guns, you must be bad
Or hiding something, Jack! Telling lies in public
Breaking codes at home
Underneath the blankets
For another role Tell these lies, you must be mad
Are you only Jack the Lad?
To feast with panthers every night
You must be careful, Jack! Don't let them try to restrain you
This is your only religion
Don't let them try to detain you
You're not the only fool We all fall, even Jack the Lad
We all fall, even Jack the Lad
Will fall Philby in the desert
Looking for a phone
Waiting on the pavement
For a call from home Play with fire, you must be mad
Are you only Jack the Lad?
Turn your back on friends you had
They must have hurt you, Jack! Don't let them try to restrain you
This is your only religion
Don't let them try to detain you
You're not the only fool We all fall, even Jack the Lad
We all fall, even Jack the Lad Don't let them try to restrain you
This is your only religion
Don't let them try to detain you
You're not the only fool We all fall, even Jack the Lad
We all fall, even Jack the Lad
Will fall
