Welcome !Just a little virtual love affair
Lonely hearts broken in despair
Just another virtual love
Millions of romancesOne more glance to his profile
Smiling face and glitter eyes
The rights words in the right place
But he is not on time again
Green light ! As he shows up !
And her heart's in her throat
Another moon in the web tide
And they still haven't downed it just yetJust a little virtual love affair
Lonely hearts broken in despair
Just another virtual love
A million of romantic nodesNow she runs to her bedroom
Bated breath and shaking hands
She goes straight to her laptop
But he is not online ... again
She stands up looking nervous
And she chats with her friends
Another joke on the website
And he still hasn't showed up just yet !Just a little virtual love affair
Lonely hearts broken in despair
Just another virtual love
Millions of romancesJust a little virtual love affair
And millions of romantic souls
But who can he be now ?
