

# Roger Rabbit

## Sleeping with Sirens

Is there a right way for how this goes?  
You got your friends, and you got your foes  
They want a piece of something hot  
Forget your name like they forgot Huh  
Ain't that something? So I wanna see you crash and burn  
And criticize your every word  
I'm trying to keep you from goin' insane  
Ain't that the way of this whole damn thing? Uh  
Trying to be something, more Nobody's gonna love you if  
You can't display, a way to capture this  
Nobody's gonna hold your hand  
And guide you through  
No, it's up for you to understand Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away  
So when you have today  
You should say all that you have to say Huh  
Say all that you have to say Huh  
Is there a right way for being strong?  
Feels like I'm doing things all wrong  
Still I'm here just holdin' on  
Confess my heart and forgive my wrongs Ho  
Just trying to show you something, more Nobody's gonna love you if  
You can't display, a way to capture this  
Nobody's gonna hold your hand  
And guide you through  
It's up for you to understand Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away  
When you have today  
You should say all that you have to say Don't point the blame when you can't find nothing  
Look to yourself, and you might find something  
It's time that we sorted out  
All of the things, we complain about So listen close to the sound of your soul  
Take back a life we lived once before If it ain't you, then who?  
If it ain't you, then who is gonna love you? Nobody's gonna love you if  
You can't display, a way to capture this  
Nobody's gonna hold your hand  
And guide you through

It's up for you to understand Nobody's gonna feel your pain  
When all is done  
And it's time for you to walk away  
When you have today  
You should say all that you have to say So when you have today, say all that you have to say
