# Your Company

## Starflyer 59

Come on
I wanna love, I wish you'd turn me around
When you climbed up the trees
Because of kicks in the kneesThat's all
And I know that's not what life's all about
When you hid in the leaves
And got stung by the beesCome on and be with me
I want your company, oh
Come on and be with me
I want your company, your companyCome on
I wanna love, I wish you'd turn me around
You know what we need
Yeah, I know how to readCome on and be with me
I want your company, oh
Come on and be with me
I want your company, your companyCome on and be with me
I want your company, oh
Come on and be with me
I want your companyCome on and be with me
I want your company, oh
Come on and be with me
I want your company, your company
