

And I'm Happiest

The Muffs

You are my dream come true
I hope you understand that I love you
No matter what and now you know
Only quietly dreaming are completely
Doesn't matter I'm forever
When I look at you, and I swear it's true
And I've never been this way
And I never just come out and say I want you and I swear it's true
You're amazing and forever and I'm happiest
And when you laugh I do
It's funny to admit but it's true
I just like seeing you this way
Everything it's so easy you and always
you know it
When I look at you
And I swear it's true
I've never never ever been this way
And never ever just come out and say
I want you And I swear it's true
That you're amazing and forever and I'm happiest
Maybe we'll go around forever
Or maybe we'll stay and hold
Or maybe we'll do nothing at all
Anything it's fine with me Only quietly dreaming are completely unintentional
Doesn't matter I'm forever, yeah
I want you
And I swear it's
That I've never been this way And that I've never just come out and say
I'm wanting you
And I swear it's true
You're amazing and forever and I'm happiest
Running around with you it's so great
Running around with you my dream come true
