Broken Wings

C-block

Hook Goldie:
Take this broken wings and learn to fly again and learn to live so free
and when we here the voices sing the book of love will open up and let us in
so take these broken wings
Rap1 Red Dogg:
Creapin' up on the microphone, It's C-Block we dippin' clean
floss with the funky flavour down with Misty - N - Goldie G
we rippin this hit near rappin' the shit
we layin' the tracks and flippin' the script
droppin' the lyrics producin' a song
checked the mic 1-2 its' on
rigity Red, bigity Black, get up with this you can't go back
tisket tasked cock the hamma blast it
homies try to flex your pain rest in a casket
you're takin' a chance you're rollin' the dice
you loose your luck you loose your life
check yourself punk before a reck that ass punk
don't make me have to take you for a ride in my trunk
I said excuses, excuses, I'm not tryin' to hear your stle is boody
by nature so get on out here
ya said ya could have necked the mic but you came to late
you said you could hyped the crowd, but your shit sounds fake
you would have stepped up on the stage but you was scared to get slammed

you woulda, you coulda, you shoulda, but you didn't Damn!
Hook Goldie:
Take this broken wings and learn to fly again and learn to live so free
and when we here the voices sing the book of love will open up and let us in
so take these broken wings and learn to fly again and learn to live so free
so take this broken wings
Rap2 Misty:
Broken wings, symbolistic of another statistic
in this jungle scene gone ballistic
realisticly the buck stops on an innocent child
with the word "can't" spoken from a white smile
a system made to degrate dictate on the uneducated
and then wanna fade frustrated, brothas when they infiltrate it,
souls lost to blaze like bombay struttin with a sashay till doomsday per se
now I'ma flip this session over to the positive,so listen closely to the message that I'm ganna give

I refuse to misuse my god given talent,
and induce to diffuse all those who are mad about it
and if you're seeking to take your life upon another status,
you need to believe that if you lean you need to get back it
and when you're struggling in this game, just put your head up high,
the skills will come to mend your wings and fly
