Together

Lime

(Denis LePage)The moment that I saw you
I knew the day would come
I was thinking of you
Someday you'd be the one
You put arms around me
You made me feel so good
You know I wanted you to be
The woman that you should(Chorus, Repeat 2x)
Babe, it's you and me together
(Together)
There could never be another
(Another)Love is the answer
That's the way it's got to be
Touching one another
Living in reality
Let me be your lover
Let me hold you by the hand
Let there be no other
Let me be your loving man(Repeat Chorus 2x)(Instrumental Break)I'll put my arms around you
And I'll never let you go
Giving all my love to you
The kind of love you like to know
'Cause love is the answer
That's the way it's got to be
Touching one another
Living in reality(Repeat Chorus and Fade)
