New Sheriff's in town I'm about to show you somethin' brand new

I ain't frontin' but there ain't nothin' I can't do

Listen man, I'm tellin' ya you can too

Man you got no idea what the heck it took to get me here I'm talkin' big hockey bags dragged back and forth

Bring it down south and get more from back up north

So I can stack up more, no matter attack with force

26 inch rims, Cadillac of course Now that I'm single this shit takes practice

Everyday a new attractive actress on my mattress

Stress relief I'm a basket case

Gimme a six pack breast implants and a plastic face Ass bangin' with them stupid thighs

I like my girls petite and super-sized

I got love man that shits real

I just got to take a few more laps around the field The Crew's Thick

New Sheriff's in town You about to know me in a big way

It's Moka O, the name that all the kids say

Hey, I hope you know the game is in for a change

You love me 'cuz I'm always known to spit strange They get strange with it plus I get change

Enough to cop the H2 in the range
Playa, I don't hate you or the game
Y'all hate ya self because you play the same I'm being fucked around, it's time to change the rules up
Y'all can still move your ass we got the new stuff
It's evidence on the track, you know the crew, what?
Swollen were super extra like a new truck The 26 inch spinners that don't rub
Makin' all the jaws drop outside the clubs
I know you wanna sing along do it up
But you gotta spread the word tell 'em who you love The Crew's Thick
(Swollen)
The Pak is phat
(Swollen)

(Swollen)
New sheriff's in town The crew is called Swollen
Remember the name
The heat that we holdin'
The Members spit flames Yo', it's unfair to put us in the same class
Before the ice melts I drain the whole glass
Ahh, nothing but fumes are left
I'm often half cocked talkin' under my breath Girls in the bathroom perfume on the chest
So when they walk through the club, damn she fresh
They shift off the wall like zero-gravity
We hit you all we don't spare no casualties Glasses clink, asses shake
Some chick wearing pink rocking boots made of snake
Cop this disk and tell the disk jock
To let this rock to the two on his wrist watch There's a new Sheriff in town
Don't make my pistol whistle like sweet Georgia Brown
We got this song stuck in your ear
With the sound so original there's nothing to clear The Crew's Thick
(Swollen)
The Pak is phat
(Swollen)
The Beatz are bad
(Swollen)
Look at that, see that ass
(Swollen) Pump pump pump, pump it up
But don't turn us down
New shit
(Swollen)
