

1000 Miles Away

Dokken

[Dokken, Norum]

Just like sand running through my hands
We tried to hold love but it just slipped away
Was I so wrong to keep you holding on
Hoping someday that we will find a way...to make love stay

[CHORUS:]

There's nothing left to say
As I send these words a thousand miles away
Still holding on to the memories
Lost in your heart, blinded by love, you said
If we had known, we could have found a way
Is it too late to bring you back to me again.

[CHORUS]

[SOLO]

[BRIDGE]

Lost in our hearts
We'll be forever yearning
Tears in our eyes
About to fall, just like rain
Only for you

[CHORUS OUT]
