# Here We Go 'round The Mulberry Bush

## [Traffic](#)

Turn around every way
Looking back another day
The race is on, I'm out to win
Before I start, I must begin
Here we go round in circles to nowhere
Mulberry bush just won't let me see
If I am lonely, when I arrive there
Mulberry bush, will you shelter me
When I am naked and cold?
Yet no one must see
Oh, they're looking at me
When I am straight I feel
That my world is real
With people running round and round
Bringing one another down
People running round and round
Bringing one another down
Turn around every way
Looking back another day
The race is on, I'm out to win
Before I start, I must begin
Here we go round, I'm looking for someone
Mulberry bush is calling to me
Red lights and green ones, I can't be nervous
Mulberry bush, your bright eyes I see
Here we go round in circle to nowhere
Mulberry bush just won't let me see
If I am lonely when I arrive there
Mulberry bush, will you shelter me?
