

# I Wanna Know

## Ambrosia

Sometimes I feel that we've been herded like sheep  
We've been led out like lambs to the slaughter  
And empty souls, kept the downtrodden down  
And took the best and left us the fodder Still in my heart I feel such purpose  
A reason for being alive And I wanna know  
Well, I want to know Sometimes it seems, there was meant to be more  
Than this rush and this battle to living  
And there's the times, we've all tasted the space  
That you know when we feel that we're giving So take some time to think about this  
I'm blinded now, I'd like to see And I wanna to know  
Well, I wanna know I wanna see through all the barriers  
Were created before I was born  
Were they put out there just to guide me  
Or keep the weak from becoming strong Yeah, I wanna know  
Well, I wanna know Still in my heart I feel such purpose  
A reason for being alive And I wanna to know  
I wanna to know Sometimes I fear that all men are asleep  
Must we shout to awake those that slumber? I wanna know  
I wanna to know  
'Cause I wanna to know
