The River Must Flow

Gino Vannelli

The river must flowI love you, you're the one that I adore
And no man could love you more
It's like a river that flows to the seaI need you like the jasmine needs the rain
Let your water cool my pain
Just like a river that flows to the seaThrough love I will find the meaning of you
All my natural dreams will come true
It's like a river that flows to the seaThrough love I will find a meaning in life
But the rain must fall down tonight
And like a river that flows to the seaOh yeah, the river must flow from me
The river must flow, from me
The river must flowYou're a falling star
Burning in my heartThrough love I will find the meaning of you
All my natural dreams will come true
It's like a river that flows to the seaThrough love I will find a meaning in life
But the rain must fall down tonight
And like a river that flows to the seaOh yeah, the river must flow from me
The river must flow, from me
The river must flowThe river must flow
The river must flow, from me
The river must flow, from meThe river must flow, from me
The river must flow, from me
The river must flow, from me
The river must flow
