How She Makes Me Feel

Natural

Could it be tha way she yastes
That puts me in a higher place
The smile on my face when I'm around her...?
Her scent that hypnotizes me
My center of reality
She is everything and more
My hear has never been so sure
Through her eyes she makes me see
My center of reality
I can't be without her
My life is about her
(Chorus)
How she makes me feel
The angel that guides me
The fire inside me
She's like a dream surreal
Everyday,another way of
How she makes me feel
Everyday I fight the fight
She somehow always makes it right
She saves me from the crazy life

Of runnin' round runnin' round
I've been through every open door
But it just makes me want her more
It's easy to see
She can find the best in me
I lay here beside her at night
And I feel her inside every world that I write to tell her...
(Chorus)
She walks in the room just her look makes
My heart starts to pound
I start to tremble
She speaks to me without a sound
As she gets nearer,my future seems clearer
Somehow
She gives me nothing to fear
(Chorus)
