

# Everybody Needs a Little Help

Shannon Noll

You've always made it on your own  
It's all in your control  
Everything on a roll till now Never a problem you couldn't face  
Two steps ahead of the race  
Everything fell into place till now, till now 'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help We're in this together  
And I'll never let you down  
I was always there  
But you never looked around till now 'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes We're only human  
Nobody's perfect  
You just got to realize it 'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes 'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes  
'Cause everybody needs a little help sometimes
