

Goodnight L.A.

Counting Crows

I said goodnight L.A.
'Cause I'm awake in my room
I've been up for 38 hours
And it don't look like sleep's coming soon 'Cause I could break like a bird
Or I could swallow the sea
It seems like the daylight is coming
And no one is watching but me But I don't mind the dark
Discovering the day
'Cause the night is a beautiful bright blue and gray What brings me down now is love
'Cause I can never get enough
And what brings me down now is love
'Cause I can never get enough of love And it's a dangerous time
For a heart on a wire
Shuttle from station to station
Noisily not knowing why So I put my head on the ground
And the sky is a wheel
Spinning these days into things that I've lost
But you can keep all the years But I don't mind the days
Gone rolling away
'Cause all this sunlight feels warm on my face today But what brings me down now is love
'Cause I can never get enough
And what brings me down now is love
'Cause I can never get enough, never get enough
Never get enough, no no, never get enough, no oh no
And still I can never get enough of love And what brings me, brings me down now is love
'Cause I can never get enough of love
I can never get enough of love
I can never ever get enough
I can never get enough of love
