Full of Fire

Shalamar

You came into my life
When I was lost and all alone
With no one to call my own
You made me feel alive againIve been in love before
And youre more than just a friend
I never thought that I would love again
But my heart is burnin for youYour love is full of fire
Burnin, only you I desire
Your love is full of fire
Cant stop this raging fire, hotFilled with so much love
And lots of understanding
Oh, this passion is everlasting
Without you there could be no meThe warmth of your embrace
It really set my soul aflame
Girl, were passed the point of playin games
Its just a spark that will burn foreverYour love is full of fire, got me burnin
Burnin, only you I desire
Your love is full of fire
Cant stop this raging fireYou got me wanting, got me wanting
Got me wanting you, baby
You got me wanting, got me wanting you, foreverYou got me wanting, got me wanting
Got me wanting you, baby
You got me wanting, you got me, got meGot me full of fire
Got me full of fire
Got me full of fire
Got me full of fireBaby, your love is full of fire
My love is burnin, burnin
Burnin only you I desireYour love is full of fire
You know I cant stop
Cant stop this raging fireYour love is what it takes
To make me forget past mistakes
If I had known that youd be comin my way
You would have spared me so much heartacheGirl, Im glad you realize
That from now until the end of time
Im gonna claim you to be mine
We got a love that lasts forever, you and I together, babyYour love is full of fire, got me burnin
Burnin, only you I desire
Your love is full of fire
Cant stop this raging fireYou got me wanting, got me wanting

Got me wanting you, baby
You got me wanting, got me wanting you, foreverYou got me wanting, got me wanting
Got me wanting you, baby
You got me wanting, got meGot me burnin with desire, full of fire
Boy, youre full of fire, fire
Got me, temperature is higher, full of fire
Cant stop this raging fireYour love is full of fire, got me burnin
Burnin, only you I desire
Your love is full of fire
I cant stopNo need in denyin
Aint no way of hidin
Your love, your loveBurnin with desire
Love is full of fire
Our love, our loveYour love is full of fire
Burnin
Your love is full of fire
Cant stopGot me full of fire
Got me full of fireYour love is full of fire
Burnin
Your love is full of fire
Cant stop
