

# Beside You Babe

Blake Shelton

Without even trying, when I close my eyes  
I see you walking around inside of my head  
Looking up at the skies, shining brighter  
Than a single sunrise that's ever burned red And I want to hold you, hold you  
Rollin' in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life Cos we got the fire tonight  
And it makes me want to dance with my baby  
In the dead of the night  
Just keep on movin' and groovin'  
To the daylight  
I'll be be right beside you, babe, til the end of time  
I've been bragging about you, baby  
You can bet I've been callin' up all of my friends  
Don't you know I've been counting down the days  
Feeling just crazy enough to call up your old man And I want to hold you, hold you  
Rollin' in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life Cos we got the fire tonight  
And it makes me want to dance with my baby  
In the dead of the night  
Just keep on movin' and groovin'  
To the daylight  
I'll be be right beside you, babe, til the end of time I want to hold you, hold you  
Rollin' in the warm sunshine  
If I never told you, told you  
I'm giving you the rest of my life  
Cos we got the fire tonight  
And it makes me want to dance with my baby  
In the dead of the night  
Just keep on movin' and groovin'  
To the daylight  
I'll be be right beside you, babe, til the end of time I want to hold you, hold you
