

# Florabama

## JJ Grey & Mofro

There's a place down on the coast  
Between Florida and Alabama  
Ah the women down there get a little, little too hot to handle  
The air so sweaty, so sticky, so tricky  
Trick or treat, baby trick it on me  
Love on the beach sweet as peaches and creamI can feel the breeze from the Gulf of Mexico  
Something in that salty air feels just right  
I can feel the breeze from the Gulf of Mexico  
There's gonna be a party in Florabama tonight  
Ah this blankets to small  
Going to get a little sandy  
Candied-lipped sweet tip, sweeter than cotton candy  
Ah a little sweat never hurt nobody, nobody, nobody at all  
Least of all me - baby can't you feel it nowI can feel the breeze from the Gulf of Mexico  
Something in that salty air feels just right  
I can feel the breeze from the Gulf of Mexico  
Gonna be a party in Florabama tonight  
I can feel the breeze from the Gulf of Mexico  
Something in that salty air feels just right  
I can feel the breeze from the Gulf of Mexico  
Gonna be a party in Florabama tonight
