## Wish I Had an Angel

## **Nightwish**

I wish I had an angel

For one moment of love

I wish I had your angel tonightDeep into a dying day

I took a step outside an innocent heart

Prepare to hate me fall when I may

This night will hurt you like never beforeOld loves, they die hard

Old lies, they die harderI wish I had an angel

For one moment of love

I wish I had your angel

Your Virgin Mary undoneI'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonightI'm going down so frail and cruel

Drunken disguise changes all the rulesOld loves, they die hard

Old lies, they die harderI wish I had an angel

For one moment of love

I wish I had your angel

Your Virgin Mary undoneI'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonightGreatest thrill, not to kill

But to have the prize of the night

Hypocrite, wanna be friend

13th disciple, who betrayed me for nothingLast dance, first kiss

Your touch, my bliss

Beauty always comes with dark thoughtsI wish I had an angel

For one moment of love

I wish I had your angel

Your Virgin Mary undoneI'm in love with my lust

Burning angel wings to dust

I wish I had your angel tonightI wish I had an angel

I wish I had an angel

I wish I had an angel

I wish I had an angel
