

# Money Honey

## Alexia

I want your money honey  
I don't want your body  
Baby I don't need your love  
I want your money honey  
I don't want your body  
Baby I don't need your loveI want your money honey  
I don't want your body  
Baby I don't need your love  
Cause my heart is made of steelI want your money honey  
I don't want your body  
Baby I don't need your love  
Cause I don't believe in loveLove is a memory  
That I keep on hiding deep in my soul  
And every time I try save my heart  
I loose myself so badLife is a mystery  
No one knows the secrets do brake trough  
And every time I try to change my ways  
I find myself aloneI don't know what to do  
All alone sad and blue  
I never be that foolI leave the misery  
I don't want to fight for love anymore  
And every time I think of yesterday  
I see how it was wrongI know my destiny  
I don't want to shed my tears anymore  
And every time I think of all my pain  
I know that I'm strongNow I know what to do  
Don't wanna feel so blue  
I never be that foolCause I don't  
Believe  
Cause I don't believe  
Cause I don'tI want your money honey  
I don't want your body  
Baby I don't need your love
