

# How Forever Feels

[Kenny Chesney](#)

Big, orange ball, sinkin in the water  
Toes in the sand, couldn't get much hotter  
Little umbrella-shaded margaritas  
Coconut oil tannin' senioritas  
Oh now I know how Jimmy Buffet feels  
Hands on the wheel, cruisin' down the interstate  
Gas pedal sticks, carries my car away  
I was goin' as fast as a rambler goes  
I could feel the speed from my head to my toes  
Oh now I know how Richard Petty feels I've been around the block a time or two  
Done almost everything a boy can do  
I've done some livin', yeah, I've had fun  
But there is one thing I haven't done Saved 2 months, bought a little diamond  
Tonight's the night, feels like perfect timin'  
Down on one knee on momma's front steps  
Man, I'm gonna die if she really says yes  
I wanna know how forever feels I've been around the block a time or two  
Done almost everything a boy can do  
I've done some livin', yeah, I've had fun  
But there is one thing I haven't done I wanna know how forever feels  
Hey I wanna know how forever feels  
Girl I wanna know how forever feels
