

# When Horsepower Meant What It Said

[Sandi Thom](#)

Caught in a gridlock, nose to tail across all lanes  
Smog nearly choking me as the car horns go insane  
'Cause they're patiently waiting to get their old jobs backs  
Carrying the human race proudly on their backs  
How easily forgotten  
How easily we're led  
How hard the path is trodden  
From when horsepower meant what it said  
I've got a hundred horses hidden in between my wheels  
But I can't put my foot down and jump the fences in the field  
Because they're patiently waiting to get their old jobs backs  
Carrying the human race proudly on their backs  
And how easily forgotten  
How easily we're led  
How hard the path is trodden  
From when horsepower meant what it said  
So if we're keeping up with progress  
Why am I standing still?  
Maybe we should take a walk and talk  
To the horses on the hill  
And how easily forgotten  
How easily we're led  
How hard the path is trodden  
From when horsepower meant what it said  
How hard the path is trodden  
From when horsepower meant what it said
