The Idealist

This is my country, this is our street, it is worth fighting for
This is a lot to take in, this is my freedom, it is worth fighting for
Iâ€™m willing to consider, Iâ€™m willing to give hope, it is worth a try
Iâ€™m struggling to get over, Iâ€™m trying to give in, I will try to get by

This is a question of truth, this is my question to you
This is my hole in the ground, this is my faith and my sound

You strive to reach and I take you in, I would like you to stand at ease
It's not a favour, it's a guilt that I have, wich Iâ€™d like you to please
Iâ€™m willing to consider, Iâ€™m willing to give hope, It is worth a try
Iâ€™m struggling to get over, and Iâ€™m trying to give in, I will try to get by

This is a question of truth, this is my question to you
This is my hole in the ground, this is my faith and my sound

This is a question of truth, this is my question to you
This is my hole in the ground, this is my faith and my sound
