

Stranger

The New Basement Tapes

Never fall in love with a stranger
And that's all they say to me
Never fall in love with a stranger
But I can't help it if she falls in love with me
Never fall in love with a stranger
Now they're going against my command
Never fall in love with a stranger
The pain is written in my eyes
But if I can't resist
Find my way out of this

She knows that I love more than any river flows
And I'm done now, all my exceptions are exposed
Not hidden in my woes, or in between my toes

I want to chase them pearl, hand them over
Do you want me to pale a man with a halo in his hair
Never fall in love with a stranger
But sometimes I simply did not care
And if I can resist, get my way out of this

She knows that I love more than any river flows
And I'm done now, all my exceptions are exposed
Not hidden in my woes, or in between my toes

I've done things right pretty much all of my life
I'm not looking for no sympathy
I can run all our life away from that stranger
But somehow she always follow me
