

It All Works All the Time

De Lux

I tried to love you,
I just stood up behind
something stupid,
something i'll never find
if you want me to hate you,
I would hate you
if you want me to love you,
I wouldn't know what to do.
and it all works all the time
and it all works all the time
I tried to hurt you,
I just didn't have the chance
something twisted,
but you know how it'd fail
but if you want me to kill you,
I would kill you
if you want me to love you,
I wouldn't know what to do.
If you could think of something better to say,
you better let me know
If you can think of something better to say,
you better let me know
I wouldn't know what to do
and it all works all the time
and it all works all the time
I tried to fuck you,
you'd never love me that way
its something special,
that's something i'd never say
if you want me to bury you,
I would bury you
but if you want me to love you oh,
now i know what to do
always and always you tell me you love me but you never think about how it could raise?
if you want me love,
give it back, give it back,
if you want me to love,
give it back to me.
If you could think of something better to say,

you better let me know
If you could think of something better to say,
you better let me know
and I'm stuck with a life where nothing ever happens nothing at all
forget me now
certain situations where nothing ever changes nothing at all
forget me now
you're stuck without my face why do you love me love me at all
forget me now
forget me now
forget me now
If you could think of something of something better to say,
you better let me know
If you could think of something better to say,
you better let me know
If you could think of something better to say,
you better let me know
