

# Everything That Makes Me Sick

## The Almost

if my fault are your song  
Then i will not be content to sing along  
if I'm the one that's making you so out of touch  
Then why don't you just go ahead and...  
Why dont you just go ahead

Blame it on this southern weather  
Blame it on anything  
i'ts not like you to ask small favours  
You can blame for everything

if i'm the cause of all your sickness and pain  
Then i'll bury my face in the hall of dirty shame  
if this is just what getting so you out of touch  
Why don't you just go ahead and...  
Why dont you just go ahead and

Blame it on this southern weather  
Blame it on anything  
it's not like you to ask small favours  
You can blame me for everything

This is my last plan to bury of all of your charm  
This is my final rush to reach for you

Blame it on this southern weather  
Blame it on anything  
it's not like you to ask small favours  
You can blame for everything
