

When I Found You

Britney Spears

I believe
We all have one true love
Somewhere in this world
I do When it seemed
All my dreams
Were falling through
That's when I found you I believe for every heart
That whispers in the dark
There's a ray of light somewhere
Shining through It was sink
Or swim
When the tide came in
It found myself When I found you
I found the closest thing to Heaven
Next to you
I found the deepest love I knew I'll believe
Yes, it's true
I found myself
When I found you, oh yeah I believe
For every door
That's closing
For every heartbreak There's hope for something new
From the ashes rise
A glimpse of paradise
It said flickered in your eyes When I found you
I found the closest thing to Heaven
Next to you
I found the deepest love I knew I'll believe
Yes, it's true
I found myself
When I found you A life I thought
No one knows
I thought love was
Just a tingling of the skin I found so long? All alone
More than you could ever know
You show deep love
Sweet love When I found you
I found the closest thing to Heaven
I found the deepest love I knew

I found the closest thing to Heaven
I found myself When I found you
I found the closest thing to Heaven
Yes in you
I found the deepest love I knew I'll believe
Yes, it's true
I found myself
When I found you
