

# Living on a Cloud

Ilse

## LIVING ON A CLOUD

Aaaaaaaaah

## VERSE

You walk out my favorite dream  
And softly put me back to sleep  
Cover me in, I melt away  
Caught in the angel's spell  
I don't mind as long as it's forever please  
I would rather die in your arms tonight  
than to wake up to a lonely day

## CHORUS

We are living on a cloud  
It's you and me baby  
We are living on a cloud  
And I'm your first lady  
We are living on a cloud  
So high so high  
Just touch the sky

## VERSE

You step out my TV screen  
And old school style you carry me  
Your arms taking me away  
Making me fall for you all over again  
Hero in the night, savior of the day  
How do I say I love you  
When it's clear you are too good to be true

## CHORUS

We are living on a cloud  
It's you and me baby  
We are living on a cloud  
And I'm your first lady

We are living on a cloud  
So high so high  
Just touch the sky

BRIDGE

Watch me fall into the sky  
Gravity can't hold me down  
We're so close to heaven now  
We're living on a cloud
