

# Girls Keep Drinking

dEUS

I'm blacking out like on a disco stage  
Yeah the eighties seem to be all the rage  
When you call my name it's like a little prayer  
Go tell the markets we all need some air  
A good strong leader is what we need  
And a strong piece of rope to tie his feet  
History is on the telephone  
And it tells me baby that you're home alone  
That you're home alone  
The girls keep drinking  
The boys are thinking  
If they drink some more  
They'll be on the floor  
We'll have no one to talk to anymore  
The record's spinning  
The dj's grinning  
But if he smiles too much  
He'll be out of touch  
Gotta give him sounds  
There are louds around like this one  
Fame has put something in our drink  
And this feeling's a raft that just wouldn't sink  
Philosophy go kill Facebook scam  
I think and un-think therefore I un-am  
Blacking out like on a disco stage  
Maybe it's time I start to act my age  
The girls keep drinking kerosene  
I'm checking out, I think they're turning green  
The girls keep drinking  
The boys are thinking  
There just ain't no use  
They're not even loose  
I would rather watch  
The rolling news  
The record's spinning  
Dust is winning  
When you call my name it's like a little flame  
On a four year train like the Olympic Games  
You better burn!
