

Come On Come On

Driving East

We're dressing up to please the scene,
and selling out so you can sing along
Our faces cover magazines
We might last long with the make-up on
But open up your eyes,
you can see just what we're trying to be
You can keep it all inside,
or take it back while we try to get away
And let me know how it goes So c'mon c'mon,
this is what you're looking for
It goes down easy,
keeps you coming back for more
C'mon C'mon,
this is what you wanted,
what you wanted right now We're taking over as we speak
The crowd is screaming for one more song
We're not exactly who we seem
Attention, that's all that matters
So open up your eyes,
you can see just what we're trying to be
You can keep it all inside,
or take it back while we try to get away
And let me know how it goes So c'mon c'mon,
this is what you're looking for
It goes down easy,
keeps you coming back for more
C'mon C'mon,
this is what you wanted,
what you wanted right now [x2] So c'mon so c'mon
it goes down easy [x4] So c'mon c'mon,
this is what you're looking for
It goes down easy,
keeps you coming back for more
C'mon C'mon,
this is what you wanted,
what you wanted right now [x2]
