

Smoking in Bed

Billy Bob Thornton

Lightning bugs buzzing round the piss elm tree
Im a hundred miles form reality
Take a big drag-suck it all in
Blow it out the window, let it ride on the windI see indigo wheels of purple and blue
People on TV, look like me and you
Theres spiders on the ceiling and buzzards on the wall
If I could find the telephone, Id give you a callSmoking in bed, smoking in bed
Its bad for my body, good for my head
I like to lay around the house and smoke in bedHave any yall ever seen a mattress burn
While listening to the Byrds sing Turn, Turn, Turn'?
Ive seen it happen, Im living proof
If you dont believe me look at the hole in my roofNow I can lay around the here and look at the sky
And watch the fuzzy black dragons as they fly by
I think its time to roll a bog ole fatty
And try to find the phone to call Miss Paisley PattySmoking in bed, smoking in bed
Its bad for my body, good for my head
I like to lay around the house and smoke in bedSmoking in bed, smoking in bed
Its bad for my body, good for my head
I like to lay around the house and smoke in bed
