

# I.C.U.

## Adore Delano

Comatose, caught up in the ghost of your touch  
I'm holding on, you're already gone, is this love? Honey, I loved the feeling that you gave to my sickly heart  
You wanted space even though we're a million miles apart  
It's time to pull the plug  
We're done, through and through  
It's time to pull the plug  
We're done, I.C.U.  
I see you-u-u  
I see you-u-u  
I see you-u-u  
I see you  
Open nights to fluorescent lights and the truth  
Frozen in my new shielded skin thanks to you Honey, I loved the feeling that you gave to my sickly heart  
You wanted space even though we're a million miles apart  
It's time to pull the plug  
We're done, through and through  
It's time to pull the plug  
We're done, I.C.U.  
I see you-u-u  
I see you-u-u  
I see you-u-u  
I see you  
(I see you)  
I see you-u-u  
I see you-u-u  
I see you-u-u  
I see you  
(I see you) And now I'm drugged with the thought of you  
Walls built higher just because of you  
There's nothing left, I gave it all to you  
My heart's still beating and it beats for you  
I see you, you Honey, I loved the feeling that you gave to my sickly heart  
You wanted space even though we're a million miles apart  
It's time to pull the plug  
We're done, through and through  
It's time to pull the plug  
We're done, I.C.U.  
I see you-u-u  
I see you-u-u  
I see you-u-u

I see you  
(I see you)  
I see you-u-u  
I see you-u-u  
I see you-u-u  
I see you  
(I see you)
