Don't Leave

Ane Brun

Don't ever leave
That is what you asked of me
do you know what it means
when you plead?Don't you ever leave
that is what you said to me
do you know what that can do
to someone like me?It won't do us no good
it won't do us no goodI have no plan to be
anywhere else to but here
or to become someone that leaves
I didn't even know there was an exit here
darling, don't you try
to capture meit won't do us no good
it won't do us no goodI am here now
I'm right here by your side
I'll lay my hand on the couch next to you
you can hold it if you would like toit will do you good
